

MAST-A PULSE VACUMM STERILIZER (HIGH END)

Integral solutions in medical equipment

MAST -A PULSE VACUUM STERILIZER (HIGH-END)

PRODUCT INTRODUCTION

MAST-A is a high-temperature sterilizer which is researched and developed according to the latest requirements of medical institution and CSSD. It is designed and manufactured by referring to latest relative state standards to meet all sterilizing requirements of CSSD. The design of chamber accords with state GB1502011, GB8599-2008, and European EN285 standard.

PRODUCT FFATURES

• Strict and standard manufacture process for product main body

MAST-A pulse vacuum sterilizer is welded by welding robot to guarantee the normalization and uniformity of the main body manufacture.

No welding part on chamber wall

MAST-A pulse vacuum sterilizer has none welding part or bolt in the chamber which effectively protects the parcels to be sterilized. The chamber silicon rubber pad which is used to protect the chamber inner wall extends service life.

Reliable and durable main body

The main body of MAST-A pulse vacuum sterilizer is designed according to professional analytical method. The modern high-emulation software ANSYS is used for main body model simulation design. Design service life: 10 years (or 20000 times sterilization)

Reasonable sealing structure

MAST-A pulse vacuum sterilizer adopts durable circular hollow sealing ring which is drived by compressed air.

Intelligent pressure controller between the chamber and jacket

MAST-A pulse vacuum sterilizer adopts intelligent pressure controller to guarantee steam pressure and quality.

STERILIZATION GUARANTEE

• Unique vacuum noise-reduction device

MAST-A series sterilizer equipped with LNS low-noise and watersaving vacuum system to reduce the operation noise.

Humanized operation system

To meet user's need on unloading side, MAST-A pulse vacuum sterilizer adopts double-screen structure. Both loading and unloading sides have a screen to display sterilizer running status and alarming information.

• Reasonable pipeline layout that realizes single-side repair MAST-A pulse vacuum sterilizer pipeline realizes single-side repair so that the sterilizer can be installed against the wall. Also, two sterilizers can use same repair space to save installation space.

Multiple sterilizing programs

Compare with traditional sterilizer, MAST-A series sterilizer equipped with functions of steam pressure detection and steam saturation measurement. Also, the sterilizer has multiple sterilizing and testing programs such as PCD, rapid, rubber and custom, etc.

Gorgeous appearance design

• Scientific design parameters, wide scope of application

Clauses	Chamber	Jacket
Design presser MPa	-0.1/0.3	0.3
Design temperature °C	144	144
Working pressure MPa	0.25	0.25
Working temperature °C	139	139
Opening pressure of safety valve MPa	0.28	0.28
